

Virtual Northern Powerhouse Offshore Energy Mission - Europe June to July 2021

Join us for this virtual Northern Powerhouse Offshore Energy mission and find out more about the demand and opportunities in Europe. Delegates will hear from our overseas colleagues in France, Germany, Ireland, Belgium, Denmark, the Netherlands and Poland as well as our partners from Team Humber Marine Alliance and the Netherlands British Chamber of Commerce (NBCC). Don't miss out on this great opportunity to grow your business internationally.

The demand for offshore energy expertise is growing and there are vast opportunities for Northern Powerhouse companies to meet the requirements for cleaner energy solutions with innovative products and services.

Mission delegates will have access to the following programme activities:

- **Mission launch event** - A general overview webinar presenting the opportunities and outlining the roadmap for the mission.
- **Market briefings** - Pre-recorded market briefings from seven European markets dedicated to a general outline of current and forthcoming offshore energy projects followed by a live Q&A with our Commercial Officers based in France, Germany, Ireland, Belgium, Denmark, the Netherlands and Poland.
- **"Dragons' Den" event** - Prospective UK exporters will be given the opportunity to pitch their business to a panel of experts who will then offer feedback on content of the offering, presentation.
- **Meet the buyer and/or pitching sessions** - Virtual pitching opportunities, consisting of two sessions with key players in the offshore energy sector from each country.

Express your interest now to join this virtual mission and find out what else is on offer.

Eligibility

Companies must be from the Northern Powerhouse region

The Northern Powerhouse had a GDP total of £411.8 billion in 2018. In 2020 alone, businesses based in the region exported £50.5 billion worth of goods to every corner of the globe, yet there remains massive potential for future international growth. The region also has high speed rail links, excellent transport, highly skilled workforces and world-class research, with six northern universities ranked in the top 20 for research excellence nationally.
